

CLEAN ENERGY SUMMIT

an initiative of
EUROPEAN BUSINESS SUMMITS

Supported by

Fighting **climate change** and accomplishing a **clean and just energy transition** are the biggest challenges of the 21st century and a big part of the **European Green Deal**, which intends to achieve **climate neutrality by 2050**, notably through the **Fit for 55 Package**, published in July 2021.

Halfway between COP 26 and COP 27, the summit will highlight policy, business, and academia's priorities regarding the clean energy transition in Europe.

**29TH OF MARCH
2022**

DIGITAL/HYBRID FORMAT
BRUSSELS

1 DAY, +10 SESSIONS,
+50 SPEAKERS
